Re: Permit Modification.

Dear Mr. Brooks:

The Division of Waste Management, Solid Waste Section, has reviewed your request to add graphite water from the GKN plant in Sanford to the list of feedstocks that you may handle at your compost facility, permit number 19-05. Your request to add these materials and the manner in which they will be managed is considered approved at a volume of 15,000 gallons per week. These changes will be incorporated into your permit.

The permit modifications are effective upon receipt of this letter. If you have any questions please feel free to contact Michael Scott at 919-508-8515.

Sincerely,

Paul S. Crissman, Chief
Solid Waste Section

● **Comments:**

Dean,

I have attached the letter that was signed by the Section Chief for you to receive the graphite water from the GKN Plant in Sanford. Let me know if you have any questions.

Michael Scott
