Landfill Gas Monitoring Plan  
Clay County Closed MSW Landfill  
Permit 22-01  
Doc ID 12542

Thank you for your query. Attached are the documents you requested. They show my only association with the facility. Please note in the documents the references to groundwater monitoring wells.

As I mentioned in our conversation, a proposed landfill gas monitoring plan referenced in the attached documents. Proposed in the plan is use of groundwater monitoring wells. Hence, the SWS request for information about them, which may be relevant to you in your pursuit of groundwater information.

The attachments are documents produced by the Permitting Branch in the Solid Waste Section (SWS). Historical groundwater and compliance matters are handled by another branch of the SWS, Field Operations and Compliance Branch.

Again, thank you for your query. Please contact me if you have more questions.

Zinith,

Thanks for speaking with me a moment ago. I am looking for copies of the following documents. As I stated on the phone, we are working with Environment, Inc. to submit the groundwater data for 2008, 2009, and 2010. The document numbers I am looking for are as follows: 12317 and 12299.

Thanks so much.
