**RE: JMN/Cleveland Container Landfill
Permit #23-02
Cleveland County, North Carolina**

Dear Mr. Crissman:

The JMN Cleveland Container Landfill (Industrial non-lined landfill) was closed in 2005 and began a five year post-closure care monitoring period on June 20, 2005, in accordance with the Letter of Closure from the Solid Waste Section, dated September 26, 2005. At this time the facility has fulfilled the monitoring requirements and it is requested that this facility be released from the responsibilities associated with post-closure care. This request is made since all 5 year monitoring requirements have been fully complied with, including a comprehensive inspection by a third party engineer completed in May 2010.

Should you need any information or have any questions, please call.

Sincerely,

Republic Services of North Carolina, LLC
