Cherry Point, NC 28533-0003

Re: Request to use Old Transfer Station, Rescind Permit to Operate Addendum #3, March 5, 2008, Reinstate Permit to Operate Modification #1, September 23, 2004, Cherry Point Transfer Station, Craven County, North Carolina, Permit No. 25-10T, Doc ID No. 4562

Dear Ms. Curlin:

The Solid Waste Section is in the receipt of your request to use the old transfer station due to the operational issues with the newly built and permitted facility. We understand the problems could not be fixed and the funding process will take until end of 2009 to correct the problems. Therefore we are reinstating, temporarily, the permit for the old facility issued on September 23, 2004. A copy of the permit is attached for your information and use. We are also rescinding the permit to operate issued for the new facility on March 5, 2008.

The NC General Assembly passed legislation establishing permit fees for solid waste management facility permits. You will be required to submit a permit modification fee prior to using the repaired facility and in order for us to issue the permit to operate the new transfer station. The fee will be due when the problems with the new facility are fixed and before using the new facility. The modification fee for a transfer station is \$500. Contact the Section and we will prepare an invoice for the fee.

Should you have any questions regarding this letter or wish to discuss the matter further, please contact Karim Pathan at (919) 508-8401.

Sincerely,

Edward F. Mussler, III, P.E.  
Permitting Branch Supervisor  
Solid Waste Section

Attachment: Permit to Operate Modification #1, September 23, 2004
