**Re: Permit to Construct and Operate
Cieszko LCID Landfill
Craven County, North Carolina
Permit No. 25-I
Doc ID No. RCO223**

Dear Mr. Cieszko:

Enclosed is a Certified Copy of the Solid Waste Permit for the above referenced Land Clearing & Inert Debris (LCID) landfill. Please note that the document is a combined Permit to Construct and Operate as allowed under N.C. Solid Waste Management Rule .0201(c). In your review of the permit conditions, please note the following:

1. Issuance of the permit does not exempt an applicant from any local ordinances that may regulate a facility and the responsibility of compliance with any applicable ordinance lies with the permit holder.
2. Condition No. 1 states that the permit shall not be effective until the certified copy is filed in the Register of Deeds office and the copy is returned to the Solid Waste Section within thirty (30) working days from date received with the page and book number, date of recordation, and Register's seal affixed on the certified copy.
3. Condition No. 7 requires that a pre-operative meeting be held and that outlines the pre-operative conditions that need to be met prior to operation.

Please contact Ray Williams, Regional Waste Management Specialist for your area, when you are ready to schedule this meeting. Mr. Williams can be reached in our Wilmington Regional Office at (910) 796-7388. If you have questions about your permit, please contact me at (919) 508-8510.

Sincerely,

Toni Wyche, EI
Solid Waste Section
