Re: Permit to Operate  
City of Fayetteville Transfer Station  
Cumberland County, North Carolina  
Permit No. 26-09T  
Doc ID No. 6890

Dear Mr. Dietzen and Mr. Pflieger:

Enclosed is the above referenced modified Permit to Operate that adds Lee, Moore, Richmond and Scotland Counties to the approved service area for the transfer station. Please review the document carefully and contact me with any discrepancies.

Also, please note that Condition 3 (Attachment 1, Part IV, page 3 of 9) requires you to record the permit on the property deed with the Cumberland County Register of Deeds. (Mr. Dietzen will receive the original for filing). Please call me with any questions regarding that process.

Thank you for your cooperation in this matter. If you have questions about the permit conditions or questions arise during operation, please contact either me at 919.508.8498 or Drew Hammonds, Environmental Senior Specialist for the facility, at 910.433.3351.

Sincerely,

Geoffrey H. Little  
Environmental Engineer
