Dear Mr. Howard,

Thank you for your verbal response to the expired permit letter sent February 19, 2010. The Solid Waste Section understands that a recent treatment and processing for mulch permit (26-10) has been issued. However, permit # 26F still needs to be addressed, either closure or permit renewal. If you decide on renewing the permit, attached is a guidance document to assist you in the LCID permit application process. Thank you for your time and cooperation. Please contact me if you have any questions.

Sincerely,  
Elizabeth Werner
