AREAS OF CONCERN AND COMMENTS:

Service area for the facility is Dare County.

The Facility is now averaging about 50 tons per day, this is down from 100 to 150 ton/day at peak times

It would be good to place a litter fence by the canal opposite the entrance to the cell to catch any blowing paper before it gets into the canal.

Cells 1&2 still need some work to establish a better stand of vegetation to prevent on-site erosion.

Please contact me if you have any questions or concerns regarding this audit report.
