Re: Full Approval of the Transition Plan for the Durham County MSW Landfill, Permit Number 32-01

Dear Ms. Newell:

The Division of Waste Management has completed its review of the Transition Plan for the referenced landfill submitted by the consultant, Malcom Pirnie, on behalf of the owner and operator, Durham County.

Rule .1603(a)(4)(A) of the Solid Waste Management Rules codified at 15A NCAC 13B requires the owner and operator of an existing MSWLF unit to submit a Transition Plan application for continuing operation and closure of the existing MSWLF unit by April 9, 1994. Rule .1617(d) requires that the plan contain: an operation plan in accordance with Rule .1625, a closure and post-closure plan in accordance with Rule .1629, a water quality plan in accordance with .1623(b)(3), and a report that contains a schedule for closure of the existing MSWLF unit and, if necessary, submittal of an application for a new facility, a lateral expansion or permit renewal.

Rule .1603(d)(2) requires the Division to establish a review schedule for the Transition Plan applications which determines the adequacy of all the plans by October 9, 1996. The rule allows the Division to issue full or partial approvals and to determine the schedule for closure of the existing MSWLF unit based on its review of the complete transition plan application.

In accordance with Rule .1603(d)(2), the Division has completed its review of the submitted application as amended through July 23, 1996, and hereby issues full approval of the Transition Plan for the referenced landfill.

The approved Transition Plan shall be effective through December 1997, or until the permitted contours are reached. Rule .1625(b)(3)(C) requires that operation drawings illustrate annual phases of development which are consistent with the minimum and maximum closure slope requirements. In accordance with this rule and Rule .1627(c)(10)(A), the existing unlined MSWLF unit shall be operated in such a manner as to cease receiving solid waste on or before

RE: Status of the City of Durham MSW Landfill Transition Plan, Permit No. 32-01

Dear Ms. Newell:

Rule .1603(d)(2)(A) of the North Carolina Solid Management Rules directs that the Division will determine the adequacy of all Transition Plans by October 9, 1996. Furthermore, in accordance with Rule .1601(c)(4), MSW Landfill Units that have not demonstrated the adequacy of their plans by this date are constituted as "Open Dumps" and must be closed under both state and federal law.

As of this time, the Division has not been able to complete it's review of the above referenced Transition Plan. A response to the Division's review letter of May 10, 1995 needs to be submitted in order to complete the review process.

Please submit all required information to the Division by September 1, 1996 in order for a timely review to be completed prior to the October 9, 1996 deadline. If you have any further questions, please contact Greg Eades at (919) 733-0692 extension 344.

Sincerely,

A handwritten signature in black ink that reads "James C. Coffey". The signature is written in a cursive style.
