Re: Old Salisbury Road Landfill (OSR), Permit No. 34-12
Permit Amendment
HDR Project No. 00162-13625-018

Dear Mr. Murray:

HDR Engineering Inc. of the Carolinas is submitting, on the behalf of the Winston-Salem/Forsyth County Utility Commission (City) this permit amendment to allow continued operations through the next five year permitting cycle for their Old Salisbury Road C&D Landfill. The information contained in this submittal is intended to fulfill the requirements of North Carolina Solid Waste Management Rule 15A NCAC 13B .0533(a)(2) for the amendment of the operating permit.

The current Permit to Operate (PTO) expires October 7, 2009. This permit amendment is a vertical expansion over the existing permitted area, which includes the Phase VI basegrade area currently under construction that would extend the PTO until October 7, 2014. HDR will submit a certification for these basegrades prior to the October 7, 2009 date for NCDENR approval.

Should you have any questions regarding this permit modification, please do not hesitate to call me at (704) 338-6843.

Sincerely,

HDR Engineering, Inc. of the Carolinas

Michael D. Plummer, PE
Project Manager
