Subject : Corrective Action Plan
Greene County Landfill
Construction and Demolition Landfill Permit 40-02
Doc ID 6651

Dear Mr. Jones:

The Solid Waste Section (SWS) has not received a revised Corrective Action Plan (CAP). A CAP is required pursuant to 15A NCAC 13B .0547(4)(c), effective July 1, 2008. On November 7, 2008, SWS staff—Jaclynne Drummond, Brian Wootton, and I—met Sean Patrick of Municipal Engineering Services Company, P. A. (MESCO) to discuss issues common to all CAP's submitted by MESCO. We agreed that SWS comments to one CAP uniformly applied to other MESCO CAP's. Foremost, the selected remedy—monitored natural attenuation (MNA)—is insufficient as a sole groundwater remediation technology. MESCO selected MNA prior to SWS approval; consequently, the SWS requested a revised CAP. On December 16, 2008, the SWS notified you that the revised CAP had not been received (Doc ID 6470). MESCO contacted the SWS on January 9, 2009, and explained its need for more time.

The SWS has set February 27, 2009 as a final deadline, following which enforcement action may begin. Pursuant to North Carolina General Statute 130A-22, an administrative penalty up to \$15,000 per day may be assessed for each violation of Regulations 15A NCAC 13B .1636 - .1637 and 0.0547. Submitted with the CAP should be the application, "North Carolina Solid Waste Groundwater Corrective Action Permit Modification Application". The application is accessible through the SWS website: <http://www.wastenotnc.org/swhome/EnvMonitoring/SWCorrectiveMeasuresGuidance.pdf>.

If you have questions, please contact me at 919-508-8401 or at zinth.barbee@ncmail.net.

Sincerely,

Zinith Barbee
Project Manager
