North Carolina Department of Environment and Natural Resources  
Winston Salem Regional Office  
585 Waughtown Street  
Winston Salem, NC 27107

Attention: Tim Jewett  
Eastern District Engineer

Reference: City of Greensboro Transfer Station Service Area

Dear Mr. Jewett:

Thank you for contacting my office regarding the designation of service areas for the proposed municipal transfer station. The City of Greensboro had originally established the transfer station's service area to be consistent with the privately owned disposal site's service area. However, based upon information obtained from the Uwharrie landfill, their currently approved service area is much broader than one needed by this municipally managed facility. Thus, the City of Greensboro respectfully identifies the following counties to be included within the service area for the transfer station located at 6310 Burnt Poplar Road.

Alamance County	Forsyth County	Stokes County
Caswell County	Guilford County	
Chatham County	Montgomery County	
Davidson County	Randolph County	
Davie County	Rockingham County	

Please modify our operating plan to include this region of the Piedmont Triad area. If additional information is required to ensure issuance of our operating permit, please do not hesitate to contact my office (336) 373-2787.

Very truly yours,  
City of Greensboro

Jeryl W. Covington, P.E.  
Director, Environmental Services
