RE: Weldon Waste Transfer Facility – Permit No. 42-05 T
Correction to Permit Modification

Dear Toni:

Richardson Smith Gardner and Associates, Inc. (RSG), formerly G. N. Richardson and Associates, Inc., would like to take this opportunity to correct a previously submitted application for permit modification. On June 3, 2005, an application was submitted to your department notifying of the change in ownership of the Weldon Waste Transfer Facility, Permit No. 42-05 T, from Waste Management, Inc. to Waste Industries, LLC. The cover letter accompanying the submittal also stated that an increase in service area was requested. As we discussed on January 4, 2007, this request was not accompanied by any supporting documentation.

After consulting with our client, Waste Industries, LLC, we have determined that this request was made in error, and that Waste Industries does not have intentions to expand the service area of this transfer station. Therefore, please disregard any reference to changes in the service area of for the Weldon Transfer Station.

If you have further comments or questions regarding this application, please feel free to contact me at (919) 828-0577.

Sincerely,

Richardson Smith Gardner and Associates, Inc.
