MEMORANDUM

TO: Jerry Blanchard
43-02 Harnett County CDLF

FROM: Ethan Brown, Environmental Senior Specialist
Solid Waste Section

DATE: January 22, 2010

SUBJECT: Survey for Capacity for Construction and Demolition Landfills (CDLFs)
Request

This is a request that a survey of the facility for the purpose of measuring capacity volume should be completed during the period from January to June of each calendar year. Data from this survey are collected in the Annual Facility Report sent out in June/July. This data includes date of the survey, total airspace (cubic yards) used since opening of facility, and tons of waste placed into the total airspace used. Data for your facility from last year's report are below:

Date of Survey	Total Airspace Used (cubic yards)	Total Waste Disposed (tons)
6/1/2008	861,000	164,726

Please note when submitting the new data, the new survey date is expected to be in calendar year 2010. The new airspace used number should be larger than previous year's. The new total waste disposed number should be larger than previous year's. Also, airspace used is a larger number than total waste disposed.

This information is requested under authority of rule 15A NCAC 13B .0542(m). If you have any questions, please do not hesitate to call me at (919) 508-8501 or e-mail me at Ethan.Brown@ncdenr.gov. Thank you for your cooperation in this matter.
