Hi Brian.

I reviewed the assessment plan and everything looks good to me. I work from home on Tuesdays. So, I will mail the official approval letter tomorrow. I wanted to let you know ahead of time so you could start organizing the field work today.

Please let me know if you have any questions.

Elizabeth

Subject: Central Carolina Monofill Landfill Phase I/II Preliminary Assessment Work Plan; Permit 43-04

Dear Elizabeth,

I am writing to inquire about the status of the Preliminary Assessment Work Plan dated September 2009 for the facility referenced above. The work plan outlines the elements of a preliminary assessment to investigate the source of tetrachloroethene in groundwater at the site. The site owners would like to assess the situation as soon as possible so that mitigation efforts (if needed) can be implemented. Would you please give me an update as to the status of the work plan, and when you think you might have comments or a letter of approval? Thanks for your help with this. Please call with any questions.

Thanks,

Brian S. Boutin, PG
