**Subject:** International Paper Landfill 5C (Closed Landfill Permit # 44-01-INDUS-1979)

Allen and Andrea,

I am giving notice that cleared woody debris will be burned in a constructed pit at the WNC Regional Livestock Center site. The woody debris will be burned away from the waste cells as soon as Monday, November 22, 2010. The burning will be coordinated with the local forest service (e.g. issue of burn permit) and the local fire department, as well as Air Quality, if required.

In a conversation with the Solid Waste Section on October 8, 2010, I was informed that the SWS only requires a notice for this activity. This email serves as a notification for you so that you are aware of the activities being conducted at the site.

Please contact myself if you have any questions.

Sincerely,

Paul Dow, P.E.
