INDUSTRIAL SOLID WASTE LANDFILL FACILITY
Permit No. 44-01

International Paper Company
is hereby issued a

PERMIT TO OPERATE
LANDFILL NO. 5, AREA B, POST-CLOSURE USES &
AREA C, LIVESTOCK MARKET & EVENTS CENTER

Located on Beaverdam Road (SR 1613) adjacent to I-40 in Canton, Haywood County, North Carolina, in accordance with Article 9, Chapter 130A, of the General Statutes of North Carolina and all rules promulgated thereunder and subject to the conditions set forth in this permit. The legal description of the site is identified on the deeds recorded for this property listed in Attachment No. 1 of this permit.

Edward F. Mussler, III, P.E.,
Permitting Branch Supervisor
Solid Waste Section

ATTACHMENT 1

PART I: PERMITTING HISTORY

1. On July 5, 1979 the original Landfill Permit was issued to Champion International Corporation.
2. In 2000 Champion International Corporation was acquired in total by International Paper Company.
3. On October 25, 1999 a Letter of Closure with Post-closure Conditions was issued.
4. On January 26, 2010 a modification was made to the Permit for construction of a Livestock Market and Events Center and approval of the Sports Complex and Hay Cutting as post-closure uses.
5. On February 22, 2011 a modification was made to the Permit for operation of the Livestock Market and Events Center as a post-closure use.

PART IV: GENERAL PERMIT CONDITIONS

1. This permit is issued by the North Carolina Department of Environment and Natural Resources, Division of Waste Management, Solid Waste Section (Section). In accordance with North Carolina Solid Waste Management Rule 15A NCAC 13B .0201(d), a solid waste management facility permit shall have two parts: a Permit to Construct and a Permit to Operate. The Permit to Construct must be implemented in accordance with Attachment 2 of this permit. The Permit to Operate must be implemented in accordance with Attachment 3 of this permit.
2. The persons to whom this permit is issued (“permittee”) are the owners and operators of the solid waste management facility.
3. (Intentionally blank)
4. When this property is sold, leased, conveyed, or transferred in any manner, the deed or other instrument of transfer shall contain in the description section in no smaller type than that used in the body of the deed or instrument, a statement that the property has been used as a solid waste management facility and a reference by book and page to the recordation of the permit.
5. (Intentionally blank)
6. Operation of this solid waste management facility must be in accordance with the Solid Waste Management Rules, 15A NCAC 13B, Article 9 of the Chapter 130A of the North Carolina General Statutes (NCGS 130A-290, et seq.), the conditions contained in this

permit; and the approved plan. Should the approved plan and the rules conflict, the Solid Waste Management Rules shall take precedence unless specifically addressed by permit condition.

7. This permit is issued based on the documents submitted in support of the application for permitting the facility including those identified in Attachment 1, "List of Documents for Approved Plan," and which constitute the approved plan for the facility. Where discrepancies exist, the most recent submittals and the Conditions of Permit shall govern.
8. This permit may be transferred only with the approval of the Section, through the issuance of a new or substantially amended permit in accordance with applicable statutes and rules. In accordance with NCGS 130A-295.2(g) the permittee must notify the Section thirty (30) days prior to any significant change in the identity or business structure of either the owner or the operator, including but not limited to a proposed transfer of ownership of the facility or a change in the parent company of the owner or operator of the facility.
9. The permittee is responsible for obtaining all permits and approvals necessary for the development of this project including approval from appropriate agencies for a General or Individual NPDES Stormwater Discharge Permit. Issuance of this permit does not remove the permittee's responsibilities for compliance with any other local, state or federal rule, regulation or statute.

ATTACHMENT 3 CONDITIONS OF OPERATING PERMIT

PART I: GENERAL FACILITY CONDITIONS

1. The Permit to Operate shall expire January 26, 2015. Pursuant to 15A NCAC 13B .0201(e), no later than July 26, 2014, the owner or operator must submit a request to the Section for permit review and must update pertinent facility plans.
2. All sedimentation and erosion control activities must be conducted in accordance with the Sedimentation Control Act N.C.G.S. 113A-50, et seq., and rules promulgated under 15A NCAC 4.
3. The edge of the waste footprint for all disposal units must be identified and maintained with permanent physical markers.

Monitoring and Reporting Requirements

4. Groundwater, surface water, and landfill gas monitoring locations must be established and monitored as identified in the approved plans.
5. A licensed geologist must be present to supervise the installation of groundwater monitoring wells. The exact locations, screened intervals, and nesting of the wells must be established after consultation with the SWS Hydrogeologist at the time of well installation.
6. Ground water monitoring wells and surface water sampling locations must be sampled for Appendix I constituents at least semi-annually according to the specifications outlined in the approved water quality monitoring plan and the current policies and guidelines of the Section in effect at the time of sampling.
7. Reports of the analytical data for each monitoring event must be submitted to the Section within 120 days of the respective sampling event. Analytical data must be submitted in a manner prescribed by the Section. Records of all groundwater, surface water, leachate and landfill gas analytical data must be kept as part of the permanent facility record.
8. (Intentionally blank)
9. A readily accessible unobstructed path must be cleared and maintained so that four-wheel vehicles may access monitoring well locations at all times.

10. A field log book which details all development, sampling, repair, and all other pertinent activities associated with each monitoring well and all sampling activities associated with each surface water and leachate sampling location must be kept as part of the permanent facility record.
11. All well construction records and soil boring logs for new wells must be submitted to the Solid Waste Section Hydrogeologist for review within 30 days of completion.
12. Copies of this permit, the approved plans, and all records required to be maintained by the permittee must be retained and made available to the Section upon request during normal business hours.

PART II: INDUSTRIAL SOLID WASTE LANDFILL UNIT SPECIFIC CONDITIONS

13. This permit approves the following post-closure uses for Landfill No. 5, Areas B and C as well as the continued operation of onsite environmental management and protection facilities as described in the approved plans:
 - a. International Paper Sports Complex (Area B);
 - b. Hay Production (Areas B and C);
 - c. Livestock Market and Events Center (Area C).

Post-closure Requirements

14. Landfill No. 5, Areas B and C have been constructed and closed according the approved plan. Post-closure maintenance and monitoring of the landfill unit must be conducted in accordance with the approved plans and the N.C. Solid Waste Management Rules.
15. The permittee must maintain the integrity and effectiveness of the cap system, including making repairs to the cover as necessary to correct the effects of settlement, subsidence, erosion, or other events, and prevent surface water from impounding over waste and run-on and run-off from eroding or otherwise damaging the cap system. In addition, a vegetative cover of native grasses must be maintained and mowed regularly.
16. Post-closure use of the property is subject to review and approval by the Division and must not disturb the integrity of the cap system, or the function of the monitoring systems. The Division may approve any other disturbance if the owner or operator demonstrates that disturbance of the cap system, including any removal of waste, will not increase the potential threat to human health or the environment.

17. The permittee must maintain a record of all monitoring events and analytical data. Reports of the sampling events and analytical data must be submitted to the Section in a timely manner.
18. Any proposed expansion to the closed landfill units will be considered a new landfill for purposes of Solid Waste Management permitting.

PART III: MISCELLANEOUS SOLID WASTE MANAGEMENT SPECIFIC CONDITIONS
Not Applicable
