Canton, North Carolina 28716

Subject: Determination of Completeness – Permit to Construct
Blue Ridge Paper Landfill, No. 6D-South
Haywood County, Permit #44-06, Document ID No. 6515

Mr. Giaque:

The Division of Waste Management, Solid Waste Section (Section) received two copies of the documents titled *Permit to Construct, Landfill No. 6D-South, Volumes I and II*, November 2008. This application was submitted on your behalf by Sevee & Maher Engineers Inc. and was received by the Section on November 19, 2008.

The submittals have been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. All of the components required by Rule .0504(2) have been submitted so both the engineering and hydrogeology portions of the application are deemed complete.

Once payment is received, the Section will begin the technical review of the application documents to determine compliance with the associated Solid Waste Management Rules, 15A NCAC 13B. An invoice for the required permit fee has been requested. Please note that a separate technical review of the Design Hydrogeologic Report will be conducted by the Section hydrogeologist, Zinith Barbee. Also, correspondence from Zinith may come under separate cover during the technical review of this application.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncmail.net . In addition, Zinith Barbee can be contacted at (919) 508-8401 or by email at zinith.barbee@ncmail.net .

Sincerely,

Allen Gaither
Environmental Engineer
