Subject: Financial Assurance Cost Estimates
White Oak MSW Landfill
Haywood County, Permit #44-07, Document ID No. 13459

Mr. King:

The Division of Waste Management, Solid Waste Section (Section) requires revised Financial Assurance cost estimates prior to issuing the Permit to Operate for Phase 3 at the Haywood County White Oak MSW landfill facility. Per the attached memorandum, which was sent to all landfill facilities, Financial Assurance cost estimates, including closure, post-closure and potential assessment and corrective action costs, must be submitted as part of the application for a new permit or permit amendment. The Phase 3 Permit to Construct submittal (DIN 5806) contained the closure and post-closure cost estimates, but did not include the potential assessment and corrective action costs as these costs were not required until August 1, 2009. It should be noted, some post-closure costs can be moved under the potential assessment and corrective action costs umbrella (contact me for further clarification). Please submit revised Financial Assurance cost estimates in accordance with the attached memorandum at your earliest convenience.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncmail.net.

Sincerely,

Allen Gaither
Environmental Engineer
