Re: Approval of Groundwater Well Alterations and Landfill Gas Extraction Well Removal
Stoney Mountain Road Landfill
Henderson County
Permit No. 45-01
DOC ID# 13543

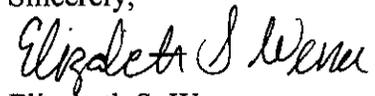

Dear Mr. Jones:

The Solid Waste Section (Section) received an email from McGill Associates on April 1, 2011 (Doc ID# 13471) requesting the alteration of three to four groundwater monitoring wells and the removal of two landfill gas extraction wells. The Section approves this request.

Based on a recent phone conversation with Mr. Bill Sperry of McGill, groundwater monitoring wells MW-9, MW-11, MW-13 and possibly MW-12 will be altered by either raising or lowering the top of casing due to construction of the new convenience center. These newly altered wells shall be resurveyed and the certification submitted to the Section. The removal of the two landfill gas extraction wells is due to the construction of the new scale house. The abandonment records of these two extraction wells shall be submitted to the Section. In addition, make sure all piping associated with the extraction system is properly sealed when removing the two wells.

Please feel free to contact me with any further questions or concerns via email
Elizabeth.werner@ncdenr.gov or phone 919.508.8496.

Sincerely,

Elizabeth S. Werner
Hydrogeologist
