## **ATTACHMENT 2 Conditions of Permit**

### **General Facility Conditions**

1. This facility is permitted to receive municipal solid waste as defined in North Carolina General Statute 130A-290(a)(18a). Hazardous and liquid wastes are prohibited from acceptance at the facility.
2. This facility may receive municipal solid waste that is generated within the service area consisting of Henderson, Polk, Transylvania, and Buncombe Counties and shall dispose of said solid waste at the Waste Management Palmetto Landfill, near Spartanburg, South Carolina.
3. This permit shall be subject to review in accordance with 15A NCAC 13B .0201(e) on or before March 21, 2011. On or before December 21, 2010, the owner shall submit a request for review and shall update pertinent facility plans including the facility operation and waste screening plans
4. If the performance and compliance history of this facility is determined to have been satisfactory by a review by the Division, and no permit revisions are required, a representative of the Section shall inspect the facility and issue an approval to continue operation for five (5) additional years under the terms and conditions of this permit. The approval shall be in the form of a letter or e-mail and the approval shall be sent to the Permitting Branch Supervisor and a copy supplied to the facility owner and operator.

### **Construction**

5. This permit is for modification and construction of the transfer facility in accordance with the approved plans, Attachment 1, Part B, Document 1. Any revision or modification to these plans shall be submitted to the NC Solid Waste Section (Section) for review and approval prior to installation, construction or implementation of the change.
6. All sedimentation and erosion control activities shall be conducted in accordance with the Sedimentation and Pollution Control Act, 15A NCAC 4, and all applicable permits shall be secured prior to construction.
7. An approval to operate by the Section is required prior to commencement of operations at the referenced facility. The following requirements shall be met prior to issuance of an approval to operate:
  - (a) A site inspection shall be made by a representative of the Section.
  - (b) Construction shall have been in accordance with the approved plan. A certification letter stating that the facility and related infrastructure was constructed in accordance with the approved plan shall be submitted to the Section.
  - (c) Three (3) copies of the construction record (~~As-built~~ drawings shall be submitted to the Section for filing and records.
  - (d) A representative of the Section shall notify the Permitting Branch Supervisor in writing, either by letter or e-mail, that the conditions have been met. The owner and operator shall be copied on the correspondence. The notification shall suffice as permission to operate as of the date of the notification.

## Operations

8. Operation of the facility shall occur in accordance with 15A NCAC 13B .0402 titled "Operational Requirements for Transfer Facilities," the conditions of this permit and the approved operations plan as listed in Attachment 1, Part B, Document 3 of this permit. This listing represents the order of primacy in case of a conflict among the regulatory conditions unless specifically addressed and approved in the facility permit.
9. The permit holder shall not knowingly accept for the purpose of disposal any type or form of municipal solid waste that is generated within the boundaries of a unit of local government that by ordinance:
  - a. Prohibits generators or collectors of municipal solid waste from disposing of that type or form of municipal solid waste.
  - b. Requires generators or collectors of municipal solid waste to recycle that type or form municipal solid waste.
10. The tipping floor and transfer trailer loading area shall be maintained in a clean, sanitary condition after operating hours in accordance with the approved Operational Plan.
  - a. Waste shall not be stored on the tipping floor after operating hours.
  - b. Waste may be stored in transfer trailers at the facility with sufficient covers in place to prevent litter, odors and vectors for no longer than 48 hours.
11. The permit number and the words, "No hazardous or liquid wastes accepted" shall be posted on a sign at the entrance and access controls shall be installed.
12. All sedimentation and erosion control activities shall be conducted in accordance with the Sedimentation and Pollution Control Act, 15A NCAC 4, and all applicable permits shall be secured prior to operation.
13. Drains, leachate collection devices and leachate storage tank for the disposal of wash down water and leachate shall be operational at all times the facility is in operation.
14. On or before 1 August (or at an earlier date as requested by the Division) of each year, the owner or operator shall report to the NC Solid Waste Section, for the previous year beginning 1 July and ending 30 June, the amount by weight of the solid waste that was received at the facility and disposed of in a landfill, incinerated, or converted to fuel. To the maximum extent practicable, such reports shall indicate by weight the COUNTY of origin of all solid waste. The owner or operator shall transmit a copy of the report to the county in which the facility is located and to each county in which waste originated.
