Subject: Renewal of Permit
Hoke County LCID Landfill
LCID Permit 47-A
Doc ID 12356

Dear Mr. Russell:

The Solid Waste Section (SWS) reviewed the proposed permit modification (modification) to the current permit. Engineering & Environment Science Company (E²S) submitted the plan depicting the modification, which has been entered into the SWS database as Doc ID 12092. Specified below are required revisions for the proposal.

1. In the Operation Plan, revise the statement in which the excavated and fill slopes for the cell are indicated to be 2:1. A slope of 3:1 is specified in the current permit.
2. In Plansheet 4 of 7, revise the note in which the slope for excavation of the cell and temporary fill is indicated as 2:1. See above comment.

Thank you for the proposal. If you have any questions, please contact me at 919-508-8401 or at zinith.barbee@ncdenr.gov, or the Environmental Specialist, Drew Hammond at 910-433-3351 or at andrew.hammonds@ncdenr.gov.

Sincerely,

Zinith Barbee
Hydrogeologist
