Re: *Revised Methane Monitoring and Response Plan*
Jackson County Landfill, Permit #50-02

Dear Mr. Parker:

The Solid Waste Section has reviewed the *July 25, 2008 Revised Methane Monitoring and Response Plan* submitted on behalf of Jackson County by Altamont Environmental, Inc. for the closed Jackson County Landfill. *The Revised Methane Monitoring and Response Plan* includes quarterly methane monitoring of landfill gas probes and bi-weekly methane monitoring of the County Maintenance Building. If methane exceedances are detected inside the County Maintenance Building, a continuous methane alarm will be installed. As a result, the *Revised Methane Monitoring and Response Plan* is approved as described. Please call me at (919) 508-8500 if you have any questions or concerns regarding this letter.

Sincerely,

Jaclynne Drummond
Hydrogeologist
Environmental Compliance
Solid Waste Section
