Subject: Permit to Operate, Five (5) Year Renewal – Issuance
Lake Norman Construction and Demolition Debris Landfill Facility, Permit No. 5504
Lincoln County, DIN 13457

Dear Mr. Gurley:

Enclosed you will find a copy of Permit No. 5504, dated April 1, 2011, DIN 13233. The Permit is for the five (5) year permit renewal and the continued operation of Cells 1A, 1B, 2A, and 2B of the BFI – Lake Norman Landfill, located in Lincoln County. Make note of the following items;

- Read your permit carefully and should you have any questions contact me immediately.
- Documents related to this permit may be found on the Section's website at <http://portal.ncdenr.org/web/wm/sw>, see the link labeled **Documents (Tracker)**.
- Copies of this permit, the approved plans, and all records, are required to be maintained by the permittee at the facility and made available to the Section upon request during normal business hours.
- In accordance with North Carolina General Statute NCGS 130A-295.8 (b)(2.)b., this is the five-year renewal of the permit for the permitted solid waste management facility. Since this permit amendment activity did not include an application for a permit to construct the next five-year phase of the landfill; then no future permitting activity remains pending or is inferred by this permit action.

Should you have any questions regarding these matters you may contact me at (828) 296-4704 or larry.frost@ncdenr.gov.

Sincerely,

Larry Frost
Environmental Engineer
