Franklin, North Carolina 28734

Re: Assessment of Corrective Measures Extension
Macon County Lined Landfill, Permit #57-03

Dear Mr. Stahl:

Following a review of the *Report of Limited Groundwater Contamination Assessment* prepared by Bunnell-Lammons Engineering, Inc. (BLE) in December 2007, the Solid Waste Section (Section) determined that contaminant plume delineation was complete and additional assessment was not necessary. The Section also directed Macon County to submit an assessment of corrective measures (ACM) report in accordance with Title 15A North Carolina Administrative Code 13B, Solid Waste Management Rules and Law, Rule .1635 in a letter dated March 13, 2008.

This letter serves as a formal extension for the ACM report submittal as requested by Macon County during a previous telephone conversation. Macon County has 90 days from receipt of this letter to submit an ACM report in accordance with 15A NCAC 13B .1635.

Please contact me at (919) 508-8520 or by e-mail at ervin.lane@ncmail.net if you have any questions or concerns regarding this letter. Thank you in advance for your anticipated cooperation in this manner.

Sincerely,

Ervin Lane
