Re: Edwards well/County of Madison

Dear Ms. Drummond:

I am not certain as to why your April 28 memo to Steve Garrison has been turned over to me, but perhaps it is due to the fact that I am the attorney for the County of Madison and the Town of Marshall.

The County of Madison does not believe that it is in any way responsible for the contaminate in the Edwards well; however, the County obviously is desirous of helping all its citizens solve their problems, and the County has made arrangements for the Town of Marshall to provide water to the Edwards residence, and the Edwards family is now hooked onto and receiving its water supply from the water system for the Town of Marshall.

The second paragraph of your email dealing with an analytical sampling is over my head, and I trust that you have received that information from another source; however, if you need such information, please feel free to contact me.

With kindest regards, I am

Sincerely,

A handwritten signature in cursive script that reads "Larry Leake".

Larry Leake
