RE: Request for Deadline Extension – Permit Amendment Application
Martin County C&D Landfill
Williamston, North Carolina

Dear Ms. Backus:

As you know, Richardson Smith Gardner and Associates, Inc. (RSG) has been working with Martin County to complete the above referenced 5-year Permit Amendment application for the continued operation of the County's C&D landfill. During the course of completion of this submittal, a new survey of the site was conducted. Previous surveys of the site have used a site datum, rather than using the State Plane datum. Evaluation of this most recent survey indicated some minor differences from previous surveys that needed to be investigated and resolved. Resolution of these minor differences has impacted our ability to meet the submission deadline. Therefore, we request an extension of the application deadline for the C&D landfill.

Further, we would like to request a meeting with you to discuss our findings prior to finalizing the report. If possible, we would like to meet sometime during the first week of January 2012. After our meeting, we expect timely completion of the application submittal. Please let us know of your availability for a meeting between January 3rd through the 6th.

We appreciate your consideration of this matter and look forward to discussing this project with you in early January. Please let us know if you have any questions or require any additional information at this time.

Sincerely,

MARION B. THOMPSON
Landfill Supervisor
