AREAS OF CONCERN AND COMMENTS:

Weather: Clear and temperatures in the 90's.

Inspected the Henson's Inc. LCID solid waste treatment and processing, materials recovery facility for compliance with the North Carolina Solid Waste Management Rules 15A NCAC 13B, Rule .0302 - Operational Requirement for Treatment and Processing Facilities.

General Observations and Recommendations:

- The facility appears to be operating in compliance with the Solid Waste permit and the NC Solid Waste Management rules.
- There appeared to be no issues involving erosion control.
- There appeared to be no problems with odor on site.
- The mulch piles appear to be well kept and are in compliance with buffer requirements.
- The facility was well managed and there were operators on site during the inspection.
- The facility had a locking metal gate to ensure security during non-operational hours.
- The current permit to the facility was issued in July 1998. The permit was renewed on June 7, 2010 and will expire on June 7, 2015.
