RE: Letter of Receipt for Revised Plan
Project Name: North Wake Landfill
Location: Wake County (Raleigh)
Submitted by: Camp Dresser & McKee
Date Received: 9-9-93
Date Processing Initiated: 9-9-93

Document 14(i)

Dear Mr. Stevens:

This office has received a Revised Erosion and Sedimentation Control Plan for the subject project in accordance with the Sedimentation Pollution Control Act of 1973.

Please be advised that this Act requires that the approving authority must approve or disapprove a revised plan within 15 days of receipt of a complete application (Date Processing Initiated). Failure of the approving authority to approve or disapprove the submitted plan within the 15 day period will be deemed approval of the plan.

Pending approval, commencement or continuation of any land-disturbing activity associated with this project is subject to the conditions of our previous correspondence.

We will complete our review of the proposed plan as soon as possible and will notify you concerning approval or disapproval. If you have any questions or need additional information please do not hesitate to contact this office at 919/571-4700. Your cooperation in this matter is appreciated.

Sincerely,

[Signature]

RE: Letter of Approval

Project Name: North Wake Landfill
Location: Wake County (Raleigh)
Submitted by: Camp Dresser & McKee
Date Received: 9-9-93
Date Processing Initiated: 9-9-93
New Submittal () Revised (X)

SEP 14 1993

Dear Mr. Stevens:

This office has reviewed the subject Erosion and Sedimentation Control Plan. We find the plan to be acceptable and hereby issue this letter of approval. If any modifications, performance reservations, or recommendations are applicable, a list is enclosed and is incorporated as a part of this letter of approval. If any modifications are not incorporated into the plan and implemented in the field, the site will be in violation of the Sedimentation Pollution Control Act of 1973 (North Carolina General Statute, hereinafter NCGS, 113A-61.1).

The land-disturbing activity described in the plan for this site may be subject to the approval of other Local, State or Federal agencies. This could include the Division of Environmental Management under stormwater or other water quality regulations, the U.S. Army Corps of Engineers under Article 404 jurisdiction, county, city or town agencies under other local ordinances, or other approvals that may be required. The approval issued in this letter cannot supersede any other required permit or approval.

Since this project will disturb five or more acres, one such required approval relates to the stormwater that will discharge from your project. This runoff must be permitted pursuant to the National Pollutant Discharge Elimination System (NPDES) administered in North Carolina by the Division of Environmental Management, hereinafter DEM. Attached is a Notice of Intent form, hereinafter NOI, for requesting coverage under the General Permit issued by DEM for the discharge of stormwater from construction activities. Prior to beginning construction activity on this project, the completed NOI form with the required fee and signatures must be submitted to DEM at the address shown on the form.

Mr. Stevens

Please be advised that Title 15A, North Carolina Administrative Code, 4B.0018(a) requires that a copy of the approved plan be on file at the job site. Also, please consider this letter as notice in accordance with the requirements of NCGS 113A-61.1 concerning our right to perform periodic inspections to ensure compliance with the approved plan.

North Carolina's sedimentation pollution control program is performance oriented, requiring protection of the natural resources and adjoining properties. If at any time during this project it is determined that the Erosion and Sedimentation Control Plan is inadequate to meet the requirements of the Sedimentation Pollution Control Act of 1973 (NCGS 113A-51 through 66), this office may require revisions in the plan and its implementation to ensure compliance with the Act.

Please note that this approval is based in part on the accuracy of the information provided concerning financial responsibility. You are requested to file an amended Financial Responsibility Form if any changes become necessary. In addition, it would be helpful if you would notify this office of the proposed starting date for the activity at the subject site.

Your cooperation is appreciated and we look forward to working with you on this project. If there are any questions, please do not hesitate to contact this office at 919/571-4700.

Sincerely,

Tim Holland
Assistant Regional Engineer
