Re: Permit to Operate: Phase I Cell C, Material Recovery C&D Landfill
Wake County, North Carolina, Permit No. 92-31, Doc ID No. 3611

Dear Mr. Smith:

The Solid Waste Section has determined the pre-operative conditions have been met for Solid Waste Permit No. 92-31, Part 1: Permit to Construct for Phase I Cell C and associated facility infrastructure. Solid Waste Permit No. 92-31, Part 2: Permit to Operate for Phase I Cell C for the above referenced Construction and Demolition (C&D) landfill is enclosed. This permit issuance also acknowledges and approves the ownership of Material Recovery, LLC by WCA Waste Corporation.

In general, the new facility permit does not reiterate permit conditions which are included in the Solid Waste Management Rules, 15A NCAC 13B, nor does it restate specific conditions which are included within the approved plans, such as site specific operations or groundwater monitoring plans.

Please be aware that for cells which continue to receive waste after June 30, 2008, a closure and post-closure plan and financial responsibility must be submitted by July 1, 2008, in accordance with 15A NCAC 13B .0547.

Please review the conditions of the permit thoroughly. Mr. Brad Bailey is the Solid Waste Section Waste Management Specialist for your area, and can be reached at (919) 508-8523. If you have questions about your permit, please contact me at (919) 508-8510.

Sincerely,

Donna J. Wilson
Environmental Engineer
Solid Waste Section
