**Attachments:** SHEET 8 INCREMENTAL FILL GRADES.pdf

Donna, we discussed a revision of this attached drawing, changing references from “cells” to phases.” Also, please note that I revised the Phase 2A line on the base grade view (stage 1) to align with the top contours (stage 2). Once I finalize the Sediment and Erosion Control with Wake County, I will forward any changes – I don’t expect this to involve much change. If I already sent this drawing last week, please ignore this message. Thank you.
