Re: Blasting Plan Approval
WCA Brownfield Road C&D – Phase 2 Cell A
Wake County
Permit No. 92-31
DOC ID# 13924

Dear Mr. Marotta:

The Solid Waste Section (Section) has reviewed the revised Blasting Plan for Phase 2, Cell A submitted by David Garrett on May 16, 2011 for the Brownfield Road C&D landfill. The Section approves this plan. The plan states that the Section will receive a 24-hour notification prior to the first shots being detonated. Included in this notification will be a map displaying the blasting points. The plan also states follow up blasting reports will be submitted to the Section within 48 hours of blasting completion. If available, a representative from the Section will be present to observe the blasting procedures.

Sincerely,

Elizabeth S. Werner
Hydrogeologist
