RE: Landfill Permit Response
Permit # 92-V
Wake County

Dear Mr. Cooke:

On March 16, 2010, Solid Waste Section (hereinafter "Section") staff completed an inspection of the Carolina Tree Debris Land Clearing and Inert Debris (LCID) landfill located on Old Watkins Road in Wake County. At the time of the inspection, there was no evidence provided to suggest that the facility had a valid permit for the operation of the landfill through the Section or Wake County. Subsequently, a Notice of Violation was issued on March 30, 2010 requesting the submittal of a permit application to the Section.

On May 19, 2010, Richardson Smith Gardner & Associates on behalf of Carolina Tree Debris submitted documentation that a Wake County permit was in place with a expiration date of May 5, 2011. Based upon the information provided, the Section will allow the facility to continue to operate under the existing permit at this time and therefore deem the Notice of Violation issued to be resolved.

As you are now aware, Wake County no longer issues permits for LCID landfills and a State issued permit must be obtained moving forward. A permit application must be submitted to the Section by February 5, 2011 which is 90 days prior to the expiration of the current permit.

I apologize for the delay of a response in the matter. Should you have any additional questions, please contact me directly at (336) 771- 5092.
