<donna.wilson@ncmail.net>

Bill,

Sorry about the delay, it takes a while to run things through legal and get organized. I am writing you a letter, but wanted to get you this email so that you could begin collecting the information that we need to finish the permit transfer. Please work on the following:

To be able to issue the permit to Domtar LLC and Domtar Inc as operators of the landfill in Plymouth, the Section needs the following:

- 1- The link, via recorded documents where Domtar assumed the assets of Weyerhaeuser. We think we see the recorded transaction in the Register of Deeds, but need Domtar to provide us the correct reference and a copy.
- 2- Because landfills are recorded against property and indexed in the Grantor Index, we need to know specifically what parcel, owned by Domtar, the landfill is on. There appear to be numerous deeds in a transaction that likely includes the deed or deeds that pertain to the landfill.
- 3- Senate Bill 1492, passed last August requires the Section to collect permit fee's. The fee for transfer of ownership of an industrial landfill permitted for 100,000 tons per year or more is \$18, 500. We will send you an invoice, please send us the appropriate billing information.
- 4- We have a letter from an offsite corporate person that says they agree to all of the existing documents and plans and operation plan. Please provide us a letter from the on-site operation that also acknowledges that the existing plans, procedures and operations plan will be followed.

We are preparing the application and will proceed as soon as we have the appropriate documentation. We will deal with financial assurance for closure and post-closure care of the landfill when you apply for the next five year amendment of the landfill.( also subject to a permitting fee) Please contact myself or Donna Wilson if you have any questions

Regards

Ed Mussler
