***Subject: Industrial Solid Waste Landfill Facility Permit No. 9401
Domtar Paper Company, LLC – Plymouth, NC***

Dear Larry:

Item #4 on page 7 of our permit to operate states that, "This facility is permitted to receive solid waste generated by Domtar Paper Company, LLC". As you are already aware, the Plymouth pulp facility which is currently owned by Domtar Paper Company, LLC, has historically received waste into its onsite, industrial landfill from both the pulp and paper facility (formally Weyerhaeuser, now Domtar) and the lumber facility (still Weyerhaeuser) which are co-located within the industrial footprint now primarily owned by Domtar in Plymouth, NC. We continued to receive waste from the Weyerhaeuser facility today, which primarily consists of general trash, ash, and wood waste; with the understanding this remains acceptable to the NC Division of Waste Management. In this regard, we request written acknowledgment from you. Specifically, could you please provide a letter stating that we are permitted to receive solid waste generated by the Weyerhaeuser Plymouth Lumber Technology Facility?

If you have any questions or require any additional information pertaining to this report, please contact me by phone, (252) 793-8163 or by email, kari.cahoon@domtar.com.

Sincerely,

A handwritten signature in cursive script that reads 'Kari Cahoon'.

Kari Cahoon
Environmental Engineer
