Re: Permit Status  
Washington County C&D Landfill, Permit No. 94-04  
Washington County, North Carolina  
Doc ID No. RCO1177

Dear Mr. Biggs:

The Solid Waste Section (Section) acknowledges that Washington County has submitted an application for amendment (renewal) of Solid Waste Permit No. 94-04, Part 2: Permit to Operate. When an applicant makes a timely and sufficient application for issuance or renewal of a permit, the existing permit does not expire until a decision on the application is finally made by the Section. Until the application is reviewed and the Section makes a final decision, the facility should continue to operate under the conditions of the existing permit.

Please be advised that the Division of Waste Management, Solid Waste Section, has finalized new Construction and Demolition Debris Landfill rules which are intended to serve the regulated community by providing regulatory guidance and by clarifying language and requirements for the development of new Construction and Demolition Debris Landfills (C&DLF). The rules became effective January 1, 2007 and are codified as 15A NCAC 13B .0531-.0547. For changes that may pertain to your facility, please visit <http://www.wastenotnc.org/swhome/CD/CandDRules.htm>.

Ben Barnes is the Regional Waste Management Specialist for your area, and he can be reached at (919) 508-8519. If you have questions about your permit, please contact me at (919) 508-8510.

Sincerely,

Toni Wyche Jones, EI  
Solid Waste Section
