Re: Monthly Gas Monitoring

Dear Ms. Werner,

Draper Aden has completed the November monthly gas monitoring and the probes are in compliance and no methane was detected in the residential houses sampled. Since the monthly testing began, we have repaired our old backup blower for the flare system and have purchased and installed a new blower at the maintenance facility to deter the gas migration.

Upon recommendation from Draper Aden, we are requesting permission to cease monthly monitoring and return to our quarterly monitoring program.

Sincerely,

A handwritten signature in black ink that reads "Donna Watson".

Donna Watson
Watauga County
