Re: Approval of Assessment Plan and Addendum Pursuant to the Compliance Order With Administrative Penalty Issued on May 15, 2007 to the Wayne County Landfill, Permit Number 96-01

Dear Mr. Rogers:

The Solid Waste Section has reviewed the *Assessment of Potentially Impacted Soil and Groundwater Plan* submitted on May 28, 2007 and the *Addendum Assessment of Potentially Impacted Soil and Groundwater Plan* submitted on June 14, 2007 on behalf of Wayne County by Municipal Engineering Services Company, P.A. for the Wayne County Landfill. The Assessment Plan and Addendum were submitted pursuant to a Compliance Order With Administrative Penalty issued by the Division of Waste Management, Solid Waste Section to Wayne County on May 15, 2007.

The Assessment Plan and Addendum consists of identifying potentially impacted soils by hand auguring and field screening using a PID meter, soil sampling, groundwater sampling, and surface water sampling. Soil, groundwater, and surface water samples will be analyzed for Appendix I Metals 6010 and Appendix I Organics 8260. As a result, the Assessment Plan and Addendum are approved as described. Once all elements of the Assessment Plan and Addendum are completed, please submit a Final Summary Report designated as Task 5 of the Plan.

Please call me at 919-508-8500 if you have any questions or concerns regarding this correspondence. Thank you in advance for your anticipated cooperation in this matter.

Sincerely,

Jaelynne Drummond  
Hydrogeologist
