Recovered Material Area,
Roaring River, NC

Dear Mr. Watkins:

Thank you for meeting with us on-site 1/14/08 and discussing this project.

The purpose of this recovered material area as shown on the attached plan is to reuse the Certain Teed waste concrete siding material as beneficial fill. This beneficial fill will allow the property owner to increase his pasture area and add usable area for farm operations. These uses are eligible for use as beneficial fill and do not require a permit according to your determination at the on-site meeting 1/14/08.

Please provide written confirmation from your office if you are in agreement with the determination.

The property owner information is listed below:

Mickey Dean Stamper
DB 742 PG 050
6583 Elkin Hwy 268
North Wilkesboro, NC 28659
Parcel ID #0605390

If you have any questions, please do not hesitate to contact me.

Sincerely,

Jake Billings
Project Designer
