Subject: Permit to Construct Extension
Louisiana-Pacific Corporation - Roaring River Facility
Permit No. 97-03

Dear Mr. Gaither:

On December 28, 2009, Louisiana Pacific (LP) was granted a Permit to Construct an expansion to its existing wood ash landfill located on its Roaring River plant site, Doc ID: 8903. Conditions of the Permit to Construct, Part 1, condition 1 specify that construction must commence with 18 months of this date, or by June 28, 2011. Due to slowing business conditions from the economic slowdown, and the resulting reduction in waste generation, LP does not believe it is necessary or desirable to expand the existing landfill in 2011. Therefore, Louisiana Pacific is requesting that the date to begin initial, substantial construction of the landfill expansion be extended a period of 12 months from June 28, 2011 to June 28, 2012.

If you have questions or require additional information, please contact the plant ESH Manager, Roy Hart at 336-696-3464.

Sincerely,

James Reavis
Plant Manager
