Subject: Leachate Pond Liner Repair
Wilkes County Solid Waste Management Facility
Permit No. 97-04

Dear Mr. Greene:

This letter is a response to your phone call on April 30, 2008 regarding the repair of holes in the leachate pond liner at the Wilkes County Municipal Solid Waste Landfill. First, I would like to point out there are no Solid Waste Permitting requirements regarding maintenance items at solid waste management facilities. However, the repairs should be made by a contractor certified for work with membrane liners. Also, once the repairs are complete, I request you submit a letter to our office stating the repairs were made in accordance with the manufacturer's specifications and all applicable regulations.

Should you have any other questions regarding this matter please contact me at (828) 296-4703.

Sincerely,

Allen Gaither
Environmental Engineer
