Compliance Update**

Dear Mr. Yates:

As a follow-up to the site inspection conducted on Wednesday, April 30, 2008, this letter and the attached report shall serve as an update on the status of compliance for the Wilkes County MSW Landfill in Roaring River, NC, in relation the Compliance Order issued on February 12, 2008.

It is my pleasure to notify you that all of the requirements of the compliance order have been met. The facility operations were in compliance with the order on April 30th. However, I had to be sure groundwater sampling data submitted by Joyce Engineering had been received and reviewed by our staff. That review is now complete and a separate letter will follow to the facility outlining the review.

Regular inspections of the facility will resume and would hope that maintaining compliance at the facility be of up most importance moving forward.

If you have any questions and/or concerns in this matter or any other Solid Waste issue, please contact me directly at (336) 771-5092.

Sincerely,

Jason M. Watkins
Central District Supervisor
