Subject: Solid Waste Permit No. 98-09: Permit to Construct - Phase 1/Cell 2&3
Wilson County Westside Construction and Demolition(C&D) Landfill
City of Wilson, Wilson County, North Carolina.

Dear Mr. Clayton:

The referenced PERMIT TO CONSTRUCT is issued in accordance with N.C.G.S. 130A-294 and the N.C. Solid Waste Management Rules, 15A NCAC 13B, .0201(b)(1)&(2) and .203(c)&(d). Enclosed is attachment 1, which lists documents included in the Approved Plan. The approved facility description includes the area described in the attached legal description, as part of the original Permit to Construct. Within the approved facility, the area identified for this Permit to Construct is Phase 1, (Cell 2 and Cell 3, consistent with drawing No. C1, "Base Grade Plan" and D1, "Landfill Cross Sections"). The specific drawings that were reviewed, as part of the permit to construction application, are dated August and September 2004 by Gary W. Ahlberg.

This permit is for the construction of the first five-year phase, Phase 1 (Cell 2 and Cell 3) consistent with consistent with drawings noted above. At the end of the first five-year operational period, Wilson County may apply for an expansion into and construction of Phase 2, if required, but will be subject to all rules in effect at that time. This permit is issued to Wilson County as the owner and operator of the facility.

Please refer to the GENERAL CONDITIONS of this permit for the definition of the approved plan, and for general terms of the Solid Waste Permit. The CONSTRUCTION AND OPERATION conditions describe permitted fill areas, acceptable waste types, landfill operation, and requirements which must be satisfied prior to operation of the facility as a Construction & Demolition landfill. Specific requirements for groundwater monitoring and facility record keeping and reporting are described in the MONITORING AND REPORTING conditions.

Mr. Clayton
Page 2
September 21, 2004

Please review the Conditions of Permit thoroughly, especially the following specific conditions:

- A. Monitoring and Reporting Requirement No. 12(e) requires that the groundwater quality monitoring wells must be installed and sampled prior to accepting waste at this landfill. Please consult with Ms. Ellen Lorscheider, Solid Waste Section Project Hydrogeologist at (919) 733-0692, Ext. 345 just prior to well construction to help ensure that completed wells meet well construction standards and will be acceptable for monitoring purposes.

Again, please review the Conditions of Permit thoroughly and contact me if you have any questions or if you require further clarification. Mr. Ben Barnes is the Solid Waste Section Waste Management Specialist for this area and can be contacted at the DENR Raleigh Regional Office by phone at (919) 571-4700. Jim Barber can be contacted at the Raleigh Central Office at (919) 733-0692 Extension 255.

Respectfully,

Jim Barber
Permitting Branch Supervisor

SOLID WASTE PERMIT

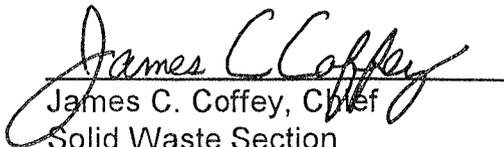

WILSON COUNTY

is hereby issued a PERMIT TO CONSTRUCT a

Construction and Demolition Landfill, PHASE 1 (CELLS 2 AND 3) of the

WESTSIDE CONSTRUCTION AND DEMOLITION LANDFILL

located on property adjacent to the closed Wilson County MSW landfill, accessed via S.R. 1503 in Wilson, Wilson County, North Carolina in accordance with Article 9, Chapter 130A, of the General Statutes of North Carolina and all rules promulgated thereunder and subject to the conditions set forth in this permit. The facility is located and described by the legal description of the site included with this permit and further identified in plat book: 32; Page 13 and deed recorded for this property in the Wilson County Register of Deeds office at Book: 1400 and Page 815.

PERMIT NO.: 98-09
DATE ISSUED(ptc/phase 1/cell 2&3):09/21/04

SOLID WASTE PERMIT
PERMIT TO CONSTRUCT - WILSON COUNTY WESTSIDE
Construction and Demolition Debris Landfill Unit
PHASE 1(Cell 2 and 3)

CONDITIONS OF PERMIT:

GENERAL

1. This PERMIT TO CONSTRUCT will be in effect for eighteen months from date of issuance and may be reviewed under rules in effect at that time if the facility is not constructed within this time frame. Modifications to the facility may be required in accordance with rules in effect at the time of review. This permit shall not be effective unless the PERMIT TO CONSTRUCT along with the certified copy is filed in the Register of Deeds Office, in the grantor index under the name of the owner of the land in the county or counties in which the land is located. The certified copy shall be returned to the Solid Waste Section and shall have indicated on it the page, book number, date of recordation and the Register's seal. When this property is sold, leased, transferred or conveyed, the deed or other instrument of transfer shall contain in the description section in no smaller type than that used in the body of the deed or instrument, a statement that the property has been used as a sanitary landfill.
2. The approved plan is described by Attachment 1, "List of Documents for Approved Plan". Where discrepancies may exist, the most recent submittal and the Conditions of Permit shall govern. Some components of the approved plan are reiterated in the Conditions of Permit.
3. This permit is not transferable.
4. This permit is for a period of five years from the date of the PERMIT TO OPERATE and is subject to review on or before the date of the PERMIT TO OPERATE as per 15A NCAC 13B .0201(c). Modifications to the facility may be required in accordance with the rules in effect at the time of the review.
5. The service area for this facility is Wilson County, consistent with the resolution by the Wilson County Board of Commissioners on 4 November 2002. The disposal capacity for PHASE 1 is approximately 100,000 tons (page 2-1, section 2.1 - Facility Description) consistent with the final contours as shown on Drawing No. C-2 and D1 in the construction application. This capacity is based the receipt of 20,000 tons/year, with a maximum variance in accordance with GS 130A-294(b1)(1) and consistent with the approved resolution by the Wilson County Commissioners dated 4 November 2002

CONSTRUCTION

6. This permit is for the construction of the Wilson County Westside Construction and Demolition(C&D) Landfill unit denoted as Phase 1(Cells 2 and 3) in accordance with the site plan drawing No. C1, "Base Grade Plan" and D1, "Landfill Cross Sections" dated September 2004. Prior to placing waste in areas of Phase 1/Cells 2 and 3, consistent with the above mentioned drawing, certification that Phase 1/Cells 2 and 3 have been constructed and graded in accordance with the approved plans will be required.
7. All sedimentation/erosion control activities will be conducted in accordance with the Sedimentation Control Act codified at 15 NCAC 4. Native vegetation shall be established on the completed C&D landfill unit in accordance with 15A NCAC 13B .0505 (3)(b)(c).
8. The following requirements shall be met prior to operation of PHASE 1/Cells 2 and 3 (i.e. Prior to the issuance of a PERMIT TO OPERATE):
 - a. Construction of PHASE 1/Cells 2 and 3 shall be in accordance with the construction plan, Drawing No. C1, "Base Grade Plan" and D1, "Landfill Cross Sections" dated September 2004 and the conditions specified herein; shall be certified by the design engineer to be constructed in accordance with the approved plans.
 - b. PHASE 1/Cells 2 and 3; inspection shall be made by a representative of the Division of Waste Management (DWM) with the owner/operator.
 - c. Signs shall be posted at the entrance of the Wilson County landfill, in accordance with the Access and Safety Requirements under Operation Condition .0505(8).
 - d. Groundwater monitoring wells (see Monitoring and Reporting Requirements) shall be installed consistent with condition 14(a) thru (g). A baseline sampling for water quality shall be performed. Well construction records, soil boring logs and sample analysis results shall be submitted to the Section Hydrogeologist for review and approval prior to operation of the C&D unit.
 - e. Inspection and certification of the PHASE 1/Cells 2 and 3 subgrade, by the project hydrogeologist, to determine if subgrade conditions are consistent with the observations made during the initial site investigations and information provided in the site hydrogeology report. If conditions found are different than conditions stated in the hydrogeologic report or that would impact or have an effect on the proposed ground water monitoring system; then a revised ground watering monitoring plan will be required.
 - f. All well construction records and soil boring logs(for existing and new wells), along with sample analysis results shall be submitted to the Section Hydrogeologist for review and approval prior to operation of the C&D unit.

OPERATION:

9. This C&D unit (PHASE 1/Cells 1, 2 and 3) is permitted to receive the following waste types:
- a. Land-clearing debris as defined in G.S. 130A-290, specifically, solid waste which is generated solely from land-clearing activities, such as stumps, trees;
 - b. Inert debris defined as solid waste which consists solely of material that is virtually inert, such as brick, concrete, rock and clean soil; and
 - c. Asphalt in accordance with G.S. 130-294(m).
 - d. Construction and demolition debris defined as solid waste resulting solely from construction, remodeling, repair or demolition operations on pavement, buildings, or other structures.

Yard trash as defined in G.S. 130A-290, shall not be disposed in the landfill area. However, yard trash, along with land-clearing debris, may be accepted for processing in the Yard Waste Composting Area or disposed of in a LCID landfill.

10. Operation of the C&D landfill unit shall conform to the operating procedures described in the approved plan, in accordance with Section .0505 of the Solid Waste Management Rules, and in accordance with the following requirements:
- Waste Acceptance and Disposal.
- a. The C&D unit shall accept only those solid wastes which it is permitted to receive as outlined in condition 9.
 - b. No municipal solid waste, hazardous waste, or liquid waste shall be accepted for disposal in the C&D unit.
 - c. The permittee shall implement a program for the C&D unit for detecting and preventing the disposal of MSW, hazardous or liquid wastes. The program shall include, at a minimum:
 - (i) Random inspections of incoming loads or other comparable procedures;
 - (ii) Records of any inspections;
 - (iii) Training of personnel to recognize hazardous and liquid wastes;
 - (iv) Development of a contingency plan to properly manage any identified hazardous, liquid or MSW wastes; The plan must address identification, removal, storage, and final disposition of waste.

Cover Material Requirements

- d. Operational soil cover of at least six inches shall be placed at least once per week or when the active area reaches ½ acre in size, or more often as necessitated by the nature of the waste, as to prevent the site from becoming a visual nuisance and to prevent fire, windblown materials, vectors, or excessive water infiltration.
- e. Areas which will not have additional waste placed on them for 12 months or more, but where final termination of operations has not occurred, shall be covered with a minimum of one foot of soil cover [15A NCAC 13B .0505(3)(b)].

- f. After final termination of disposal operations at the C&D unit or major part thereof, or upon revocation of a permit, the fill areas shall be covered with at least two feet of suitable compacted earth [15A NCAC 13B .0505(3)(c)] or a cap as specified by the rules in effect at the time of closure.

Access and Safety

- g. The C&D unit shall be adequately secured by means of gates, chains, berms, fences, or other security measures approved by the DWM to prevent unauthorized entry.
- h. An attendant shall be on duty at the Wilson County landfill at all times while it is open for public use to ensure compliance with operational requirements.
- i. The access road from S.R. 1503 to the C&D unit shall be of all-weather construction and maintained in good condition.
- j. Dust control measures shall be implemented when necessary.
- k. Signs providing information on dumping procedures, the hours of operation, the permit number, and other pertinent information shall be posted at the entrance to the Wilson County landfill.
- l. Signs shall be posted stating that no MSW, hazardous waste or liquid waste can be received in the C&D unit.
- m. Traffic signs or markers shall be provided as necessary to promote an orderly traffic pattern to and from the discharge area and to maintain efficient operating conditions.
- n. The removal of solid waste from the facility is prohibited unless the owner/operator approves and the removal is not performed on the working face. If C&D recycling is to take place in the future; amendment of the operations plan shall be submitted to the Solid Waste Section for approval.
- o. Barrels and drums shall not be disposed of unless they are empty and perforated sufficiently to ensure that no liquid or hazardous waste is contained therein, except fiber drums containing asbestos. Asbestos waste shall be managed in accordance with 40 CFR 61.
- p. Open burning of solid waste is prohibited. Fires shall be reported to the Solid Waste Section by phone within 24 hours of an incident and written notification shall be submitted within 14 working days addressing the events at the site and future actions to be taken in the future to avoid and or mitigate potential fire hazards.
- q. The concentration of explosive gases generated by the C&D unit shall not exceed:
 - i. twenty-five percent of the lower explosive limit(1.25% of CH₄) for gases in site structures (excluding gas control or recovery system components if necessary; and
 - ii. One hundred percent of the lower explosive limit(5% CH₄) for gases at the property boundary. Installation of permanent gas monitoring wells may be required in the future to demonstrate compliance.

Erosion and Sedimentation Control

- r. Adequate sedimentation and erosion control measures shall be practiced to prevent silt from leaving the site of the C&D unit.
- s. Adequate sedimentation and erosion control measures shall be practiced to prevent excessive on-site erosion.
- t. Provisions for a vegetative ground cover sufficient to restrain erosion must be accomplished within 30 working days or 120 calendar days upon completion of any phase of C&D landfill unit development or as addressed in the approved Sedimentation and Erosion Control permit.

Drainage Control and Water Protection Requirements

- u. Surface water shall be diverted from the operational area.
 - v. Surface water shall not be impounded over or in waste.
 - w. A separation distance of at least four feet shall be maintained between the C&D waste and the groundwater table; as addressed in the site suitability application, hydrologic assessment section.
 - x. Solid waste(C&D) shall not be disposed of in water.
 - y. Leachate shall be contained on site or properly treated prior to discharge. An NPDES permit may be required prior to discharge of leachate to surface waters and or for land disturbing activities greater than one acre.
11. All pertinent landfill operating personnel will receive training and supervision necessary to properly operate this C&D landfill unit in accordance with G.S. 130A-309.25 and addressed by memorandum dated 29 November 2000(enclosed).
12. Ground water quality for the C&D landfill unit is subject to the classification and remedial action provisions referenced in Rule .0503 (2)(d) of 15A NCAC 13B.
13. A closure and post-closure plan must be submitted for approval at least 90 days prior to closure or partial closure of any landfill unit. The plan must include all steps and measures necessary to close and maintain the C&D unit in accordance with all rules in effect at that time. At a minimum, the plan shall address the following:
- a. Design of a final cover system as required by the solid waste management rules in effect at the time of closure;
 - b. Construction and maintenance/operation of the final cover system and erosion control structures;
 - c. Surface water, ground water, and explosive gas monitoring.

MONITORING AND REPORTING REQUIREMENTS

14. Ground-water monitoring wells and monitoring requirements for the C&D landfill unit:
- a. Monitoring well design and construction shall conform to the specifications

outlined in, "North Carolina Water Quality Monitoring Guidance Document for Solid Waste Facilities-DRAFT" and water quality sampling and analysis shall be done in accordance with Construction and Demolition landfills and Closed Sanitary Landfills

- b. A total of four locations for ground water wells {GMW-1(up-gradient) and GMW-2, GMW-3 and GMW-4(down-gradient locations for Phase I} as approved in the "Water Quality Monitoring Plan", Section 6.0 dated 3 September 2004 by Gary W. Ahlberg, P.E. and Gary D. Babb, P.G. located in the permit to construct application.
 - c. A geologist shall be in the field to supervise well installation. The exact locations, screened intervals, and nesting of the wells shall be established after consultation with the SWS Hydrogeologist at the time of well installation.
 - d. For each monitoring well constructed, a well completion record shall be submitted to DWM within 30 days upon completion.
 - e. Prior to the acceptance of any waste at the C&D unit, a baseline sampling event shall be completed and analysis submitted to the SWS Hydrogeologist.
 - f. Sampling equipment, procedures, and parameters shall conform to specifications outlined in the above-referenced guidance document,[Monitoring and Reporting Requirements, condition 14(a) pg. 9] or the current guidelines established by DWM at the time of sampling.
 - g. In order to determine ground-water flow directions and rates, each monitoring well shall be surveyed, and hydraulic conductivity values and effective porosity values shall be established for the screened intervals for each monitoring well.
 - h. The permittee shall sample the monitoring wells semi-annually or as directed by the SWS Hydrogeologist.
 - i. A readily accessible unobstructed path shall be initially cleared and maintained so that four-wheel drive vehicles may access the monitoring wells at all times.
15. The permittee shall maintain a record of all monitoring events and analytical data. Reports of the analytical data for each water quality monitoring sampling event shall be submitted to DWM in a timely manner.
16. The permittee shall maintain a record of the amount of solid waste received at the C&D unit, compiled on a monthly basis. Scales shall be used to weigh the amount of waste received.
17. On or before 01 August 2005, and each year thereafter, the permittee shall report the amount of waste received (in tons) at the C&D unit and disposed of in the C&D landfill unit to the Solid Waste Section and to all counties from which waste was accepted, on forms prescribed by the Section.

This report shall include the following information:

- a. The reporting period shall be for the previous year, beginning 01 July and ending on 30 June;
 - b. The amount of waste received and landfilled in tons, compiled on a monthly basis, and;
 - c. Documentation that a copy of the report has been forwarded to all counties from which waste was accepted.
18. All records shall be maintained on-site and made available to the SWS upon request, specifically records generated by conditions 10, 11, 13, 14, 15, 16 & 17.

Wilson County Westside Construction & Demolition Landfill Property

BEGINNING at a point located at the northwesterly corner of Tract 1 on a map entitled "Recombination Plat, Wilson County Landfill" as recorded in Plat Book 32, Page 13 of the Wilson County Registry, thence from said point of BEGINNING running along the northerly line of the aforementioned Tract 1 S 56°44'20"E 2046.65 feet to a point, cornering, thence running along the easterly line of the aforementioned Tract 1 S 44°30'40"W 3290.20 feet to a point on the traverse line of the Buck Branch, cornering, thence running along the traverse line of the Buck Branch the following courses and distances N 27°37'56"W 52.53 feet, N 27°37'56"W 541.38 feet, N 15°46'04"E 450.77 feet, N 42°58'44"E 258.20 feet, N 09°17'36"W 208.83 feet, N 32°42'36"W 402.81 feet, N 19°17'26"W 321.17 feet, N 23°55'24"E 631.57 feet, N 40°45'34"E 454.57 feet, N 29°58'24"E 456.29 feet, N 43°42'14"E 209.68 feet and N 50°15'59"E 5.12 feet to the point of BEGINNING and containing 103.76 acres and being all of Tract 1 on the map entitled "Recombination Plat, Wilson County Landfill" as recorded in Plat Book 32, Page 13 of the Wilson County Registry.

Tract 1 is also subject to a 3.76 acre buffer as shown on the aforementioned map and described as follows BEGINNING at the northeasterly corner of Tract 1 on the map entitled "Recombination Plat, Wilson County Landfill" as recorded in Plat Book 32, Page 13 of the Wilson County Registry and running along the easterly line of the aforementioned Tract 1 S 44°30'40"W 3290.20 feet to a point, cornering, thence leaving said line N 27°37'56"W 52.53 feet, N 44°30'40"E 3264.15 feet and S 56°44'20"E 50.98 feet to the point of BEGINNING. According to the Solid Waste Permit issued for the Westside Construction and Demolition Landfill Facility, the facility property excludes the 3.76 acre buffer described herein.

CONSENT JUDGMENT

295

THIS CAUSE, coming on to be heard before the Honorable G.K. Butterfield, Jr., Resident Superior Court Judge, Superior Court District 7B, and it having been stipulated by the parties and the Court finding as facts the following:

1. This action was duly instituted on the 11th day of May, 1990, by the issuance of Summons and the filing of a Complaint, Declaration of Taking, and Notice of Deposit, along with the deposit of \$135,700.00, the sum estimated by the Plaintiff to be just compensation for the taking of the property of the defendants. The Plaintiff amended its Complaint, Declaration of Taking, and Notice of Deposit on July 9, 1990, by alleging that the Plaintiff estimated the sum of \$175,000.00 to be just compensation for the taking of the property of the defendants and deposited an additional \$39,300.00 so that the total amount of deposits was equal to the amount estimated to be just compensation.

2. Summons, together with a copy of the Complaint, Declaration of Taking and Notice of Deposit were duly served upon each of the defendants as they appear of record. The Amended Complaint has also been served upon each of said defendants.

3. All persons having or claiming to have an interest in the condemned land are parties hereto and are duly before the Court.

4. The parties have now settled all matters in controversy between them, and as agreed by the parties, the sum of \$175,000.00, which sum includes any claim by the defendants to interest, is the full and adequate value of, and represents just compensation for, the taking of the defendants' property

5. The defendant, William R. Williamson shall be allowed to retain any tobacco or other crop allotments on said property.

6. The defendant, William R. Williamson, shall have until and including November 1, 1990, to remove the house located on the property taken in this proceeding. The house shall not be occupied until after the same has been removed from the property taken in this

RETURN

proceeding. Should the house not be removed on or before November 1, 1990, the defendant, William R. Williamson, shall have no further right or claim in said house and the plaintiff may thereupon dispose of said house as it sees fit. The defendant, William R. Williamson, shall also be entitled to have until November 1, 1990, to complete growing and removing his sweet potato crop on the 15 acre portion of the land taken in this proceeding which is farthest from the Wilson County Landfill.

ON THE FOREGOING STIPULATIONS, THE COURT CONCLUDES AS A MATTER OF LAW THE FOLLOWING:

1. The plaintiff was entitled to acquire and did acquire on the 11th day of May, 1990, the property of the defendants as described herein.

2. These proceedings as appears from the pleadings are regular in every respect and no just cause has been shown against granting the prayer contained in the Complaint, Declaration and Notice.

3. Except as expressly set forth herein, the defendants are not entitled to any further relief from the plaintiff as a result of the taking.

NOW, THEREFORE, IT IS ORDERED, ADJUDGED AND DECREED that:

1. The Plaintiff, County of Wilson, on the 11th day of May, 1990, by the filing of a Complaint, Declaration of Taking, and Notice of Deposit, has condemned and shall be permanently vested with, the property, interest or estate, described as follows:

DESCRIPTION OF ENTIRE TRACT OR TRACTS AFFECTED BY TAKING:

That certain tract of land containing 127.98 acres, more or less, located in Gardner's Township, Wilson County, North Carolina; and bounded, now or formerly, by natural boundaries and/or lands owned by and/or in the possession of persons as follows: on the North by Nancy Thomas Johnston, on the East by the County of Wilson, on the South and West by Roland Mohesky; said tract lying approximately 7/10 of a mile in a southerly direction from the intersection of N.C.S.R. 1501 and N.C. Highway 42 and being more specifically described as follows:

BEING all of Lot No. 7 as shown on that certain plat entitled "Revision of Survey of property of the Larry I. Moore, Jr. Heirs", made by Bobby Rex Kornegay, R.S., dated December 22, 1976, and recorded in Plat Book 14, Page 109, Wilson County Registry.

TOGETHER with a perpetual easement for ingress and egress, along and across that right of way or easement sixty feet (60') in width which is located along the northerly property line of Tracts Nos. 2 and 4, the

easterly property line of Tract No. 5 and the northerly property line of Tract No. 6-B from the southern terminus of N.C.R.S. No. 1500 to a point in the westerly property line of Tract No. 7, all as shown on the aforesaid plat recorded in Plat Book 14, Page 109, Wilson County Registry.

STATEMENT OF THE PROPERTY TAKEN: Entire fee simple interest.

DESCRIPTION OF AREA TAKEN: Entire tract.

2. The total sum of \$175,000.00, deposited herein by the plaintiff shall, by agreement between the parties, be disbursed by the Clerk of Court as follows:

PAYEE	AMOUNT OF DISBURSEMENT
NCNB National Bank of N.C.	\$24,197.76
Wilson County Tax Collector	772.15
William R. Williamson	<u>150,030.09</u>
TOTAL	\$175,000.00

3. A copy of this Judgment shall be certified under seal of the Court to the Register of Deeds of Wilson County, and the Register of Deeds shall be ordered to record this Judgment among the land records of the County.

4. The Plaintiff, County of Wilson, shall pay the costs of this action.

This 13th day of July, 1990.
