Re: Onsite Concrete Crushing
Whitehead Sand
Pender County, North Carolina
Doc ID No. 6792

Dear Ms. Whitehead:

In response to your letter dated January 8, 2009, following your telephone call to me around that time, your proposal to crush brick and concrete at the above site would not constitute an activity that the NC-DENR Division of Waste Management would regulate under the following conditions:

1. The activity does not create a nuisance or adversely affect human health or the environment, and
2. Material must be processed and beneficially used within 12 months.

This determination does not exempt you from complying with any other pertinent local, state or federal rules. Also, you are solely responsible for the safe operation of the crushing facility and are solely liable for any harm to the environment or human health and safety that the operation may cause.

Thank you for your cooperation in this matter. If you have questions about the above information, please contact either me at 919.508.8498 or Wes Hare, Environmental Senior Specialist for the facility, at 910.796.7405.

Sincerely,

Geoffrey H. Little
Environmental Engineer
