RE: Your letter of March 16, 2006, regarding site drainage in the vicinity of the proposed Black Bear Disposal MSW Landfill in Camden County, N.C.

Dear Mr. Martin,

This letter is to acknowledge our receipt of your Letter of March 16, 2006, regarding site drainage in the vicinity of the proposed Black Bear Landfill. Unfortunately most of the documentation accompanying the letter is of poor quality, with parts being barely legible and significant portions being illegible. Please provide another copy of the documentation that is clearly legible. Indeed, it would be useful if you could provide two legible copies, since each landfill permit application is reviewed by both an engineer and a hydrogeologist.

Thank you for your interest in this project. The Solid Waste Section will appreciate you providing us with legible copies of the documentation in your letter, so we can effectively evaluate this information. If you have any questions about this letter, please call me at (919) 508-8507.

Sincerely,

Bobby Lutfy
