Not that I am aware of. I approved their groundwater assessment work plan on February 20, 2012. Their plan was to implement their work plan during their next scheduled semi-annual sampling event sometime in March 2012. I will receive an assessment report 90 days after the semi-annual sampling event.

Subject: CHR Duke Energy Marshall Steam Station

We are conducting a CHR on the Duke Energy – Marshall Steam Station Industrial Landfill Facility, Permit number 18-09. Are you aware of any current compliance issues for this facility?

Thanks,
Allen

Please note, this email and any responses to this email will be going into Documentum to document the CHR process.
