City of Newton Operational Plan for LCID Landfill

RECEIVED

Owner/Operator: City of Newton

Location: 1171 Boston Road
Newton, NC 28658

Contact: Wilce B. Martin
Public Works and Utilities Director
828-695-2489

AUG - 6 2010

SOLID WASTE SECTION
ASHEVILLE REGIONAL OFFICE

Daily Operations: The city will be using the facility to dispose of concrete and asphalt debris extracted during repair operations. The city will also allow contractors working on the cities behalf to be allowed to dump in the facility. There is a police firing range on-site that is adjacent to the LCID area.

Hours of operation: The hours of operation for the LCID property are from 8:00 AM to 4:30 PM. During operational hours the gate remains unlocked. After the normal hours and on weekends, the gate going into the property will be locked under city issued lock and key.

Estimated tonnage: Tonnages are based on the past couple of years. The closest estimate available would be around 300 – 350 tons annually.

Emergency plan: The cities fire department will respond to all calls at Boston Rd. Facility.

City of Newton Operational Plan for LCID Landfill
Composting Facility

- Owner/Operator: City of Newton
- Location: 1171 Boston Road

- Daily Operations: Small Type 1 Unit Composting plan: The city will compost the brush, leaves and chipping material collected daily from within the city limits as required by North Carolina Administrative Code 15A NCAC.
1. The city will form wind rows and aerate then monthly.
 2. The city will annually turn leaves.
 3. The compost process will be maintained at or above 131 degrees Fahrenheit (55 Celsius) for three days and compost aerated as needed to maintain those temperatures.
 4. Temperatures will be taken daily or weekly to monitor the wind rows temperatures.
 5. As necessary the city will have a tub grinder brought in to grind the composted material and haul it away.
 6. The city is considering a T-300 or T400 Trench Burner for the future to burn this type of waste on site.
 7. This unit is manufactured by Air Burners LLC of Palm City, Fl. City staff is contacting Air Burners for references and site visits to observe this process. The city would not consider purchasing one of these units until fiscal year 2011-2012 after all approvals from State and local agencies.
- Hours of operation: The hours of operation for the LCID property are from 8:00 AM to 4:30 PM. During operational hours the gate remains unlocked. After the normal hours and on weekends, the gate going into the property will be locked under city issued lock and key.
- Estimated tonnage: Tonnages are based on the past couple of years. The closest estimate available would be around 300 – 350 tons annually.
- Emergency plan: The cities fire department will respond to all calls at Boston Rd. Facility.
