Mr. Smith:

The Division of Waste Management, Solid Waste Section (Section) has completed the review of the document titled *Operations Plan: Solid Waste Transfer Station and Convenience Center* (DIN 12790) submitted in request of a five-year renewal of the Permit to Operate. The document was received in the Asheville Regional Office on January 25, 2011.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee, in addition to the components required by 15A NCAC 13B.0401, has been submitted so the application is deemed complete.

Based on this review, it has been determined the Section requires clarification or additional information in order to approve the Operations Plan. Please provide a response for each of the following items and revise the Operation Plan as necessary:

1. The Emergency Contact Information table in Appendix A shows Jim Patterson as the contact for DENR in the Asheville Regional Office. Mr. Patterson is no longer with DENR and that position is currently filled by Mr. Troy Harrison. The Section would recommend eliminating names from contact lists as personnel changes are common.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
