

Periodic Methane Monitoring Report

Lamont Road LCID and C&D Landfills

Monitoring Date: 31 JAN 2012 Facility Name: _____
 Facility Permit #'s: #26G and #26-08 Monitoring Personnel (Name/Position): Jeff Sloop Solid Waste Support
 NC Landfill Rule: 0.0500 Monitoring Personnel (Name/Position): Chris Varla Tech
 County (Location): Cumberland Equipment Field Calibrated by: J. Sloop
 Equipment Type: GEM 2000 Plus Manufacturer Cal/Service Date: 27 JAN 2012
 Equipment Serial #: GEM 1202379 - 15332 Date/Time of Field Calibration: 31 JAN 2012 1205
 Calibration Gas: Oxygen/Nitrogen/Methane/CO2 Cal Gas Expiration Date: Sept 2014
 Meter pump rate: _____

Gas Monitoring Wells

Drawings identifying location where each building sampled (include north arrow):

Climatic/Physical Conditions at Site

Samples must be collected under normal/average conditions of temperature, pressure, and climate for the season. Barhole punch sampling should not be performed during or immediately after rain events, or when soils are saturated or frozen. **All sampling must be performed after 12:00 pm** (subsurface gases have a diurnal cycle and generally are at a maximum during the afternoon), and preferably when barometric conditions are not rising (subsurface gas pressures will be less than atmospheric pressure under these conditions and gas will therefore not migrate), or representative samples may not be obtained. Barometric information can be obtained from many locations (i.e. <http://weather.noaa.gov>).

- a. Soil Conditions: _____
- b. Weather Conditions: Sunny ~~cloudy~~
- c. Temperature: ~~22.2~~ 61°F
- d. Barometric Conditions: Rising Falling Steady x Reading ~~29.97~~ 30.43 mmHg
- e. Relative Humidity within range of 10%-90%? Value: ~~47%~~ 33%
- f. Condition and Access: Are all monitoring points identified in the field (signage) in accordance with approved monitoring plan; are they secured; has the owner/operator maintained access?
If no, explain in space provided below.

g. If stressed vegetation is noted, describe the extent and location in the space provided below.

Description of Sampling Techniques: (e.g., wells are vented or not, barhole punch methodology, etc.)

Additional Comments:

No Comments

Certification:

To the best of my knowledge, the information reported and statements made on this data submittal and attachments are true and correct. I am aware that there are significant penalties for making any false statement, representation, or certification including the possibility of a fine and imprisonment.
