Durham, North Carolina 27701

Subject: Determination of Completeness
City of Durham Transfer Facility
Durham County, Permit #32-12, Document ID No. 10205

Ms. Valencia:

The Division of Waste Management, Solid Waste Section (Section) has completed the technical review of the *Permit Renewal Request* (DIN9093) for the City of Durham Transfer Facility. The document was received by the Section on December 22, 2009.

The submittal has been reviewed for completeness in accordance with General Statute 130A-295.8(e). A determination of completeness means that the application includes all required components but does not mean that the required components provide all of the information that is required for the Section to make a decision on the application. The permitting activity fee, and the components required by 15A NCAC 13B.0401 have been submitted, so the application is deemed complete.

In addition, the updated Operations Plan included with the submittal has been found to be satisfactory and is approved. The five-year renewal Permit to Operate will follow via email in the near future.

If you should have any questions regarding this matter please contact me at (828) 296-4703, or by email at allen.gaither@ncdenr.gov.

Sincerely,

Allen Gaither
Environmental Engineer
